

COUNTY ENGINEERING SERVICES

Olsson Associates has been providing services to communities for more than half a century. We work in partnership with communities to provide a full range of services, from the planning stages through design and construction. Our engineers, planners, surveyors, scientists, and specialists work with county officials, their constituents, and other stakeholders to develop economical and environmentally acceptable solutions.

Olsson Associates can provide all of the services counties require, which allows us to effectively communicate and coordinate your projects with ease. Our staff has the experience, technical expertise, and dedication to find a solution that meets your requirements and constraints.
